**The Arnaud Lefebvre Gallery is pleased to show the work  
of three Women Artists who work and live in France :**

**NADINE DE KÖENIGSWARTER, DIANA QUINBY and ANNE SAUSSOIS.**

Each Artist in her own way worked for a long time and their art has reached a full expression.

**Nadine de Kœnigswarter's** pieces play with the notion of perception and deal with social and political matters as well as with the realm of dream and unconsciousness.

**Diana Quinby's** drawings involve Human Body and question the relation between subject and object in a deeply ideological concern.

**Anne Saussois** works in series and her painting is an impressive body of color fields, architectures, cut-out shapes, travel diaries and painted books.

**The show at Art Paris Art Fair 2019 aims to give more exposure to these three artists and celebrate their achievements.**
